Learn from Nature how to relax

In our Wellness Hotel this is very easy.

In fact, the splendid natural scenery surrounding our Wellness Hotel Drumlerhof is a giant wellness area itself. It is relaxing, calming, provides wellbeing and new strength. In spite of this - or indeed because of it - we have brought nature inside the hotel so you can get very close to nature; in the sauna, in the pool or during one of our numerous SPA treatments.

Forest Bathing

Discover the health benefits of the forest.

A forest bathing trip involves visiting a forest for relaxation and recreation. A review from Japan found that forest environments promoted lower concentrations of cortisol, a lower pulse rate, lower blood pressure, greater parasympathetic nerve activity and lower sympathetic nerve activity than city environments.

The forest is our neighbour & friend.
